

Road works on A20

As you may already be aware as from March 3rd 2008 improvement work will commence on the A20 road in and out of Dover. These works are scheduled to last approximately 12 weeks. Throughout the duration of the works various diversions will be put in place aimed at keeping traffic flowing as freely as possible under the circumstances although some delays may be inevitable.

In close cooperation with the U.K. Highways commission we will update our Travel News section on a regular basis as to the varying diversions and send additional information by email on any changes in the approach route to our Dover terminal.

Should you require further information please visit: www.highways.gov.uk/a20doverresurfacing

We apologise in advance for any inconvenience this may cause.

Yours sincerely

R.Daelman

Freight Director
